ABOUT ME

Motivated recent graduate with a solid foundation in C, Python, Java, and DBMS. Skilled in developing and optimizing software solutions with a focus on clean, efficient code. Strong problem-solving abilities and excellent time management skills, consistently meeting deadlines. Adaptable and eager to contribute to a dynamic team while growing professionally.

EDUCATION

2022 - 2026

JNTUK University

Bachelor Of Technology

Bachelor's degree in Information Technology, with a focus on software development and problem-solving. Eager to apply academic knowledge while continuously learning and growing in a professional environment.

2020- 2022

Narayana Junior College

Board of Intermediate Education

Completed intermediate education in MPC (Mathematics, Physics, and Chemistry) from the Board of Intermediate Education. Strong foundation in analytical thinking, problem-solving, and technical concepts.

2019 - 2020

Nagarjuna High School

Board of Secondary Education

Completed SSC (Secondary School Certificate) from the Board of Secondary Education. Developed a strong academic foundation in core subjects and essential skills for further education.

INTERNSHIPS

May-June(2024)

Codsoft

web developer

As an accomplished front-end web developer with over codsoft of experience, I have demonstrated proficiency in crafting dynamic and visually captivating user interfaces.

may-june(2024)

APSSDC

Artificial Intelligence

AI course with APSSDC, specializing in Sentiment Analysis using Natural Language Processing, Text Mining, and Data Cleaning techniques to develop and deploy models for evaluating restaurant review datasets.

Jan-Apr(2024)

AICTE-eduskills

Blue prism

Proficient in Blue Prism RPA technology, I've streamlined operations at AICTE EduSkills through workflow automation. Specializing in process design, implementation, and ongoing support, I drive efficiency and innovation aligned with organizational goals.

SKILLS

- C
- Front-End
- JAVA
- FULL STACK
- PYTHON
- MS WORD
- DBMS
- MSEXCEL

PROJECTS

Web Development

Built a full-stack online quiz platform with React and Node.js, featuring user authentication, quiz creation, and real-time scoring.Built a full-stack online quiz platform with React and Node.js, featuring user authentication, quiz creation, and real-time scoring.

AIOT

IoT-driven vehicle entry/exit system, enhancing security and optimizing traffic flow with sensors, microcontrollers, and a central system. Implemented real-time vehicle tracking, automated reporting, and access control. This minimized manual oversight and maximized system performance.

CERTIFICATIONS

Nov 2023

NPTEL

INTERNET OF THINGS

Completed certification in Internet of Things (IoT) from NPTEL, gaining comprehensive theoretical knowledge in IoT architecture, protocols, and applications. Enhanced understanding of IoT concepts through rigorous coursework.

April 2024

NPTEL

DATA ANALYTICS WITH PYTHON

Completed certification in Data Analytics with Python, gaining comprehensive theoretical knowledge in data manipulation, statistical analysis, and visualization. Enhanced understanding of analytical methods and Python libraries such as Pandas, NumPy, and Matplotlib.
